REV20200727

# THE SCREENING YOU COMPLETED INDICATES THAT YOU MAY BE AT INCREASED RISK FOR COVID-19

IF YOU ARE NOT FEELING WELL, WE HOPE THAT YOU FEEL BETTER SOON!

Here are instructions for what to do next

1

If you are not already at home, please avoid contact with others and go straight home immediately.

2

Call your primary care provider or CDC's Occupational Health Clinic\* for further instructions, including information about COVID-19 testing.

3

Contact your supervisor (if you are an employee) or your contracting company (if you are a contractor) to discuss options for telework and/or leave.

Before going to a healthcare facility, please call and let them know that you may have an increased risk for COVID-19.

In case of a life-threatening medical emergency, dial 911 immediately!

## RETURNING TO THE WORKPLACE

**If you have had symptoms consistent with COVID-19 or have tested positive for COVID-19, DO NOT** physically return to work until you get a medical evaluation and are approved to return to a work setting by your medical provider or—if you are involved in a CDC response—a CDC occupational health clinician.\* Please call your supervisor to discuss when to return to work. Read more about when it is safe to be around others at <https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/end-home-isolation.html>.

**If you have a chronic medical condition that causes COVID-19-like symptoms** and you need to access a CDC facility within the next few days, please call CDC's Occupational Health Clinic at 404-639-3385 to determine whether you can safely be granted access to a CDC facility.

**If you have been in close contact with someone with COVID-19** you should stay home and self-quarantine for 14 days before returning to work. Read more about when you should be in isolation or quarantine at <https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/quarantine-isolation.html>.

**If you are currently isolating or quarantining because of concerns about COVID-19 OR you have a COVID-19 test pending**, please contact your primary care provider or CDC's Occupational Health Clinic\* for guidance on when you can return to work.

If you have additional questions about when you can return to work, please email [OSSAM@cdc.gov](mailto:OSSAM@cdc.gov). For information about COVID-19 and basic instructions to prevent the spread of disease, visit CDC's COVID-19 website at <https://www.cdc.gov/covid19>.

\*If you are assigned to the COVID-19, Ebola, or Polio responses, or work in a lab, call CDC's Occupational Health Clinic at 404-639-3385 instead of your primary care provider for next steps. DO NOT physically go to a CDC Occupational Health Clinic location.
